

MARBELLA PRIVATE VILLAS

Curated Villas for Stays & Events

Introducing Marbella Private Villas

From a villa designed by a disciple of Frank Lloyd Wright, to a villa with a Picasso mosaic in its pool, to estates once owned by royal families.

Marbella Private Villas curates exceptional estates in Marbella, Spain's leading luxury destination and a benchmark across the Mediterranean, for private stays and events at scale.

We source villas and venues aligned with each brief, coordinate owners and suppliers, and act as a trusted local partner to agencies, private assistants, event planners, and their clients on the ground.

What we offer

Private villas and estates for:

- Leisure stays and multi-generational travel
- Corporate programmes and executive retreats
- Private events, weddings, and celebrations

Each property combines accommodation, space, and infrastructure within a single private setting.

Marbella:

A Leading European Destination

Just 40 minutes from Málaga Airport, Marbella blends Andalusian charm with a refined Mediterranean lifestyle.

It offers Europe's highest concentration of golf courses, renowned five-star hotels, and a vibrant culinary and social scene.

Its climate, accessibility, and venue diversity make it a natural setting for holidays, corporate events, and destination weddings.

Events, Scale and Execution

Our estates combine accommodation, meeting space, and event settings within one private venue, designed for multi-day programmes and large-scale gatherings.

- Accommodation for 10 to 45+ guests
- Reception capacity from 50 to 400 guests
- Expansive gardens suitable for events
- Indoor spaces adaptable for meetings

A trusted local network ensures seamless execution, from catering and AV to staffing, transport, and guest logistics.

CHAUMET

The image shows a large outdoor wedding reception. Long tables covered with white tablecloths are arranged in rows, each set with white plates, blue napkins, and glassware. The tables are decorated with elaborate floral centerpieces in various vases, featuring a mix of pink, purple, orange, and white flowers. The chairs are light-colored wooden frames with cane backs. The background is a lush tropical garden filled with numerous tall palm trees and dense green foliage. The sky is clear and blue. The word 'CHAUMET' is centered in the middle of the image in a white, serif font.

Treasured locations, coveted settings

From beachfront estates to golf-front villas and secluded mountain retreats, the collection spans Marbella's most sought-after locations.

Each property is positioned for privacy, access, and outlook, from the Golden Mile and the coastline to elevated hillside enclaves with panoramic sea views..

We build cherished moments

Within each villa and setting, moments are shaped to be lived and remembered.

An outdoor lunch beneath Mediterranean gardens.

Sunset cocktails overlooking the Strait of Gibraltar and the African coastline.

A private film night in a former in-house theatre.

Each setting, carefully chosen. Each moment, effortlessly delivered.

Villas that are designed for large groups and families

Most properties offer between 6 and 15 bedrooms, with one estate accommodating up to 28 bedrooms.

This allows groups to stay together in one private setting, suited for large families, multi-generational travel, and organised group stays without compromise on space or privacy.

Kosher-friendly villas

Our villas can be adapted and kasherized for large, high-end kosher stays.

Many properties feature dual kitchens, allowing full kosher preparation for Passover, Sukkot, Chanukah, and lifecycle events.

We work closely with local rabbis, Chabad Marbella, and trusted kosher chefs and caterers, with mashgiach supervision and full coordination throughout.

Interiors with character, distinct in style

Each villa reflects its own identity, shaped by thoughtful design and a clear sense of place.

From classic Mediterranean warmth to vintage charm, ultra-modern lines, and Moroccan influences, interiors are curated to feel both refined and personal.

Wellness and wellbeing, built in

Most of our villas feature dedicated wellness spaces, allowing guests to integrate relaxation and recovery into their stay.

Facilities may include private spas, indoor pools, hammams, saunas, massage rooms, and fully equipped gyms, all within calm, private surroundings.

Experiences and bespoke itineraries

A selection of experiences shaped around each stay and the rhythm of the group.

A secured VIP table at an exclusive beach club, followed by an evening flamenco and equestrian show at the villa.

Morning tee times at some of Europe's finest golf courses, with dedicated recovery in the afternoon.

Heritage tours to Granada or Córdoba, a private guide to Málaga's Picasso Museum, or a day trip to Morocco.

Each finding its place within the flow of the stay.

Agency enquiries

For proposals, villa sourcing, and project coordination aligned with your clients' brief, we remain at your disposal.

Each request is handled with discretion, precision, and a clear understanding of agency workflows.
